Winchester	10,604	142	78	220	838	31.5	1/9/2022	1/22/2022	1/27/2022

* "Percent positivity is calculated as the number of positive tests among community residents conducted during the 14 days divided by the total number of positive and negative tests among community residents during the same period. If someone was tested more than once during that 14-day period, then those multiple test results (regardless of whether they were positive or negative) are included in the calculation."
